

Soap Making Demonstration

Sat 23rd October...1:00pm-3:00pm

at Loose Produce 2 Hobbs Avenue Como

Come and have some fun learning how to make your own soap. When you learn how easy it is you will never use commercial soap again. Commercial soap has some harsh ingredients. Tallow (animal fat), can clog pores, cause blackheads and increase eczema for those with sensitive skin. Tetrasodium EDTA a preservative that can be irritating to the eyes/mucous membranes just to name a few.

In the demonstration you will learn how to make soap with vegetable oils. You will get to take home some soap that has been made and you can cut it up yourself next day. Put away for three weeks and you will have lovely soap.

This class costs \$35.00 per person.

All you have to **bring** is a clean, 1L cardboard milk container and a towel to wrap the soap up to take home.

Phone Loose Produce (08) 9474 9100 to book.
